## HOLDING UP THE NEW RAILROAD

### MR. O'BOYLE FATHERS THE RESOLUTION.

**It Directs that the Company Take Up Tracks Laid Across Twelfth Ward Streets and Cease Work on a Bridge Abutment Resting in the Bed of Roaring Brook—Selectmen Not Yet Ready to Buy the Reynolds Tract as an Addition to Nay Aug Park.**

Messrs. Schneider, O'Boyle and Quinnan, the special committee of select council appointed to investigate the report that the new trolley company was constructing tracks across city streets, without authority, reported as follows at last night's meeting of select council:

We found that ties and rails for a railroad track have been placed and laid across several of the city streets, namely, River street, Orchard street, Hemlock street, Moosic street and others, and have not found any authority for the constructing of said railroad.

The report was simply received and filed.

Under the head of new business, Mr. O'Boyle introduced a resolution directing the director of public works to remove these tracks and also prevent the company from proceeding further with the construction of abutments for a bridge across Roaring brook, because the abutments are in the bed of the brook, and, as Mr. O'Boyle explained, are likely to cause floods. The resolution was adopted, without opposition.

### LAND FOR PARK.

The ordinance appropriating \$4,000 for the purchase from the Reynolds Bros. for 6.44 acres of land adjoining Nay Aug park, was laid over until a special committee, consisting of Messrs. Merriman, Clemons and McAndrew can report whether or not the land is desirable as an addition to the park. Mr. Cosgrove and Mr. Quinnan protested against the purchase, the former on the ground that the money should be expended on a park for West Scranton, and the latter for the reason that the land was a tract of granite boulders, not readily accessible from the park.

C. S. Reynolds was given the privilege of the road and tried to explain that the land was a very desirable acquisition to the park. All the councilmen propose to go up and look over the ground.

The following ordinances passed first and second readings: Providing for repairing Hollow street bridge; providing for sidewalks on Division street, between Hyde Park avenue and Sixteenth streets; providing for the establishment of grades on all streets in the Fifteenth ward, now under way.

Ordinances providing for a joint fire house and police station at 629 Prospect avenue; appropriating \$2,500 for the repair of engine house No. 2, and limiting the speed of electric cars to four miles an hour over street crossings passed third reading.

### NEW LEGISLATION.

New measures were introduced and dealt with as follows:  
By Mr. Rogers—A resolution for a joint committee of six to induce the trolley company to issue transfer between the South Side and Bellevue lines. Adopted.

By Mr. Nagel—An ordinance providing for the narrowing to thirty feet of the roadway of Gibson street between Quinly and Taylor avenues. Favorably reported and passed on first reading.

By Mr. Quinnan—A resolution providing for lighting with electricity the portion of Nay Aug park that has been improved. Referred. A resolution directing the director of public works to confer with the officials of the Jersey Central railroad with a view of abating the nuisance caused by dropping of water from the roof of the freight depot on West Lackawanna avenue. Adopted.

A communication was received from Superintendent Brown of the department of building inspection, transmitting plans for an \$11,000 fire house, at the easterly end of Lackawanna avenue.

Demas Judge, of 456 Railroad avenue, presented a written claim for \$200 damage done his property by the bursting of a fire hydrant, and James Ruddy, of 436 Phelps street, made claim for \$500 for damage done his property by overflows from the Fourth district sewer. Both claims were referred to the judicial committee.

### NOT TRANSFERABLE.

Recorder Connell vetoed the resolution transferring to D. G. Vosburgh the huckster's license taken out by John Murray, whom Mr. Vosburgh succeeded in business. The reason for the veto was that there is no provision in the law for such transfer. The veto was sustained.

For the streets and bridges committee, Mr. Merriman reported favorably a resolution requesting the director of public works to report to councils what steps have been taken to have Mattes street opened to its full width. The resolution was adopted.

The conductors will personally have charge of their patrons and everything possible is being done toward its success. The Ithaca City band will furnish music for the event. Should the appointed day be stormy, the following Monday will be the day for the trip. The hustling member, B. F. Dunfee, of Towanda, will cheerfully furnish any other information desired. At the meeting of Duryea borough council last evening, a resolution was unanimously adopted "emphatically protesting against the importation of men from the slums of large cities and seaports, who parade our streets armed to the teeth, for the purpose of agitating the people of our peaceful borough." A committee was appointed to investigate the cost of macadamizing the main thoroughfare of the borough, and a motion was adopted that hereafter the janitor should see to it that twelve seats are reserved for the councilmen, secretary and the borough solicitor. The latter was called forth because the meetings of the borough fathers are usually attended by large audiences and the councilmen oftentimes are compelled to be without a seat.

Hand testified that he saw Foster's body the day it was found and that there was a cut over the right eye. James Cassidy, who followed, said he also saw the cut on Foster's eye. Albert C. Mott, a bayman, said that there was no oyster beds near where the bodies of Clarence Foster and Lawrence were found. **Captain J. W. Kambeck, Quartermaster Vandling, and Detail of Ninety Men Left D. & H. Station at 9:20 O'clock Last Night—Lehigh Valley Taken at Wilkes-Barre, and Philadelphia and Reading at Allentown—Charles Adams Appointed Sergeant Major of First Battalion.**

The advance detail of the Thirteenth regiment left the city via the Delaware and Hudson, at 9:20 o'clock last night for Gettysburg, and arrived there about 7 o'clock this morning. The detail was in charge of Captain John W. Kambeck, of Company B, and Lieutenant P. W. Henshaw, of Company F, and consisted of about ninety men.

Their train consisted of six freight cars, five baggage cars and three passenger coaches. At Wilkes-Barre the Lehigh Valley was taken, and at Allentown the train was switched to the Philadelphia and Reading. A big crowd had gathered at the Delaware and Hudson station and gave the boys a hearty send-off, when they boarded the train, shortly after 9 o'clock.

### NICARAGUA VOLCANOS.

**Outbreaks Are Chemical in Action and Not Severely Explosive.**  
By Exclusive Wire from The Associated Press.

Managua, Nicaragua, July 9.—The active volcanoes of Costa Rica, Miravalles and Rincon de la Vieja, situated respectively eighty and sixty miles southeast of Lake Nicaragua, gave a day's warning previous to their recent eruptions. No natives are reported to have lost their lives.

The country in vicinity of the volcanoes is sparsely settled, being mainly cattle lands. The mountains are distant from the lake and ocean and the water supply in their vicinity is moderate. Therefore they are not severely explosive. The principal causes of the outbreaks are chemical action and the readjusting of the earth's crust.
